Important:

- Each test report must be correlated with the clinical history. A single test report can't ensure an absolute diagnosis.
- You should get retesting for each abnormal value after 7 to 10 days. An average of two consecutive test reports can ensure a proper diagnosis.
- Please don't interpret the reports yourself. For any abnormal value, please consult a certified medical practitioner.

Terms and Conditions:

- Home collection may be free or chargeable depending on the total order value and distance from the branch locations. Please refer to the Home College charge sheet on the next page
- The serviceable area is within an 8 KM distance from any of our branch locations. Beyond 8 KM, service may or may not be available depending on the technician's availability. Additional service charges may be applied depending on distance and total order value.
- Once the report is released, you will get it via WhatsApp and email. You can collect hardcopy reports from any of our branches. For hardcopy report delivery at home, extra charges will be applicable depending on the distance from our branches.
- Reports for basic packages will be shared in around 24 to 28 hours of sample collection. For advanced packages, it may take 48 hours to 72 hours. In some unforeseen situations, reporting may be late.
- Offers are valid for a limited period only.
- For the accuracy of the reports, please ensure to be on an empty stomach for 9 to 10 hours before giving samples for fasting profile tests.
- For any abnormal report, we suggest repeating the test after seven days.
- Please never interpret the abnormal values in the report yourself. Consult a certified doctor if any abnormal value is found.
